

HIMEL CHOUDHURY

MARKET RESEARCH ANALYST | ENGINEERING GRADUATE

Agartala, Tripura, India | 9366664729 | choudhuryhimel03@gmail.com

PROFESSIONAL SUMMARY

Analytical Electronics and Telecommunications Engineering graduate with experience in global B2B market research, competitive intelligence, and technical analysis. Experienced in developing structured market landscapes, identifying key manufacturers and solution providers, building MECE market segmentations, and assessing industry trends, value chains, pricing considerations, and competitive positioning. Skilled in synthesizing information from official company websites, product documentation, annual reports, investor relations materials, earnings-call transcripts, and government or regulatory sources. Technical foundation includes Python, C++, JavaScript, MATLAB, AWS, Git/GitHub, and engineering tools, with additional exposure to Salesforce CRM concepts and software quality-assurance practices.

PROFESSIONAL EXPERIENCE

Market Research Analyst | **Future Market Insights** | May 2026 – Oct 2026

- Conducted global market research across industrial, technology, materials, energy, logistics, and other B2B sectors, preparing structured market profiles and competitive landscape assessments.
- Identified and mapped manufacturers, suppliers, and solution providers across geographies, evaluating product portfolios and market relevance through official company websites and product information.
- Developed MECE and non-overlapping market segmentations and research frameworks covering market structure, trends, key success factors, pricing considerations, value chains, and competitive ecosystems.
- Synthesized primary-source information from company websites, annual reports, investor relations materials, earnings-call transcripts, and government or regulatory publications to support research findings.
- Assessed competitor participation, product offerings, company positioning, benchmarking factors, value contribution, and potential white-space opportunities.
- Translated detailed research into structured insights and presentation-ready content to support market assessments and competitive comparisons.

TECHNICAL & FUNCTIONAL SKILLS

Market Research & Competitive Analysis: Global market mapping; competitor profiling; industry analysis; MECE segmentation; value-chain analysis; pricing analysis; benchmarking; trend assessment

Salesforce & CRM: Salesforce CRM fundamentals; CRM workflows; Sales Cloud and Service Cloud concepts; platform and administration concepts; business-requirement understanding

Software Testing & Quality Assurance: Functional testing; user-interface testing; regression testing; smoke testing; test-scenario identification; test-case design; test execution; test documentation

Defect & Productivity Tools: JIRA; TestRail; Zephyr; defect tracking and analysis; MS Excel; status reporting

Programming & Web Technologies: Python; C++; JavaScript; HTML; CSS; MATLAB

Cloud & Engineering Tools: AWS; Git; GitHub; MATLAB; Simulink; MS Office

Professional Capabilities: Analytical problem-solving; research documentation; communication; teamwork; adaptability; attention to detail

ACADEMIC PROJECTS

Digital Stethoscope using Op-Amp — Designed a digital stethoscope circuit using an operational amplifier to improve sound amplification and analysis; applied signal-processing techniques to support enhanced diagnostic audio capture.

Drone Communication Enhancement (Ongoing) — Explored approaches to improving drone communication reliability, reducing latency, and supporting real-time data transmission.

EDUCATION

B.Tech, Electronics and Telecommunications Engineering | Kalinga Institute of Industrial Technology, Bhubaneswar, Odisha | Sep 2022 – Jun 2026

Class XII | Pranavananda Vidyamandir, Agartala, Tripura | Mar 2022

Class X | Pranavananda Vidyamandir, Agartala, Tripura | Mar 2020

CORE STRENGTHS

Structured thinking • Analytical reasoning • Attention to detail • Team collaboration • Clear communication • Quick learning
